INDEPENDENT.

An esteemed friend of ours, Mr. Pitcairn, of New Lisbon, is the writer of the following brief essay. The subject discussed is one of no ordinry interest to all. Mr. P. is not an experienced writer, but the question he proposes to discuss is one that requires attentive thought, which in contemplating indicates that he is a thinker, and in expressing his ideas thereon is necessarily led, in some degree, into the realm of metaphysics. But the conclusion at which he arrives, viz, that heaven is a condition rather than a specific locality, seems to us entirely plausible and reasonable; and he is far from being alone in this idea. It may be said that a very large mass of people have no definite idea at all of heaven, and its nature, their conceptions are exceedingly vague—we may say chaotic. The word heaven, however, in the minds of all who have given it thought, is associated with good—the antithesis of hell, or evil. According, then, to Mr. P's theory—and what is wrong or repulsive about it?—all sentient beings can have or enjoy heaven, even before being transformed into the coming mode of existence. Many of our most earnest Christians often sing of having a heaven here below, and nobody is repelled at the idea, but all seem rather to like it. So, as before intimated, the writer of the article is not at all singular in his definition and conclusions. Wherein he seemingly differs from many professing Christians is as much in the use of words, perhaps more, than in real ideas. Mr. P. is a receiver of the doctrines taught by Swedenborg, and some highly orthodox and good people regard many of the Sweedish seer's teachings as heretical.

WHERE IS HEAVEN?

Our Christian Philosophers and the great Dr. Dick, alike with the Bishops of the church, place heaven up in the starry worlds that revolve in the planetary worlds of the sun's solar system—thus in space and time—thus making heaven a material world. The Lord Jesus, the Christ, when speaking of heaven, says to the Pharisees, "The kingdom of God cometh not with observation; neither shall they say, lo here, or lo there, for behold the kingdom of God is within you." From this doctrine, taught by Him who has all power in heaven and earth, and by whom all things were made, heaven cannot be a material world. Either within man or without him, then what can constitute heaven, and to be within him let us inquire and investigate. Love is man of whatever quality, good or evil, is man's essential life, and our loves cannot be seen, felt, measured or weighed as natural substances are; and as with love, so with the understanding. Then love and the understanding in man are not material substances, and are not derived from it.

God is love and wisdom, and is it possible for those two faculties to exist unless in form, a body, and of spiritual substances? Matter cannot think or love, nor is there any life in matter but from spirit, and as God is love itself and a spirit, He tells us that if we are in love of all that is good and true, or in the effort to have or be of such a quality that He will be with us, and we will be in Him and He in us. And what is that, but to partake of His quality? which is goodness and love, from which quality proceeds all that can constitute heaven, all that is beautiful and lovely in outward and inward life, with peace and inward enjoyment, with all life's duty from love to those around us; and such a state of life in man is heaven on earth, and the seed so sown on our inward earthly ground, affections, must when done with time and space, be like unto a tree bearing its fruit in the heavenly world.

Man cannot see nor handle his love and understanding with his hands, but nevertheless, he knows he has it, feels that it constitutes himself, and is himself, and he is just such a man as his loves and wisdom make him. "The mind is the measure of the man," and cannot be located in time or space, but is connected with a corresponding corporal body. Man is only a man from his loves and understanding when in the use of the good and true, and thus an image and likeness of God, and by the cultivation of our lives for that which is good, and in the use of them, and by so doing we are laying up treasures in heaven. The degrees of heaven or happiness cannot be forced on man, but is a sequence of loving and the doing of good from a principle of action and not by any arbitrary power.

All the natural organs of the natural man are of material substances, and are but counterparts of the spiritual body by which the man acts in and by which he manifests himself to others in an outward world of material substances. Love and wisdom in man must have a bodily form from which they act, and must be formed of spiritual substances, and therefore must be derived from the heavenly world and be in it, if he is in the love and practice of doing good. Is not love and the understanding a real substance, although you cannot see it with the bodily eyes nor touch it with your bodily hands, and which does not fill earthly space? Men say love is in the soul, but what is the soul if not a bodily form composed of spiritual substances? God is not God afar off, then, neither is heaven to the good or those who are pure in heart. Affections are from the will, and not from the organic heart proceeds our loves, pure or impure. Then if we are conjoined to God and heaven from pure loves, so also are we enjoined to hell by evil loves.

The spiritual world is as closely and intimately connected with the natural world as soul and body in man, and when the man can act no longer in the natural organized form to see natural objects and his friends around him, he awakes as from a sleep, to see other and more beautiful forms and his friends around him in the spiritual world, without having passed through space of this world's natural atmosphere. There have been thousands of good people, old and young when passing from time to eternity, who have spoken of the beautiful forms and objects seen with the eyes of the spirit man, and heard such enrapturous music that the natural degree of mind could not conceive of.

All development of life is from the interiors to the exterior, and it is by the opening up of the interior dormant spiritual faculties that we are enabled to see and hear the objects of the spiritual world, and as our perceptions of outward earthly things pass and fade from our natural senses, our spiritual awakens to a perception of friends and objects in the spiritual world without passing through earthly space.

"I cannot do much," said a little star,
"To make the dark world bright;
My silvery beams cannot struggle far
Through the folding gloom of night;
But I'm only a part of God's great plan
And I'll cheerfully do the best I can."

More about the Haunted House!

The Spirits still on the Rampage!

Further Strange Developments.

The evil spirit, or IT, haunting the house of Mr. David Hoffman, in the suburbs of Wooster, continues in its turbulent ways, and still remains a mystery. It is the theme of conversation and speculation among all classes of the city, and creates the sensation of curiosity, amusement, or fear, according to individual temperament. Practical people charge that the so-called spiritual manifestations are the leger demain tricks of a living female member of the family, but thus far have no facts to sustain the theory, although considerable detective ability has been exercised.

The family indignantly deny, and with plausible argument assert their innocence, and invite investigation by the hundreds who visit their house. They state that they are as much confounded at what takes place as other persons, and are very anxious to be relieved of their unknown maligant enemy, who is ruining them financially, and in every manner giving them the greatest discomfort. They are afraid to sleep in separate chambers, and therefore bed in one room, frequently disturbed and frightened by unearthly noises. Nothing they possess appears to be safe. Clothing, furniture and provisions alike disappear. Crockery ware flies to pieces, five dollars' worth of lard, a quantity of eggs, butter and several other things pertaining to the larder; unceremoniously disappeared lately. To that, without food or raiment, and worried, as Mr. Hoffman expresses himself, until 'almost crazy,' it seems proper that IT had better cease from troubling and let the weary be at rest.

So many persons are so constantly calling at the house that the family admit but few, on account of pressure. About three hundred were refused last Sabbath. On one occasion, several were declined admission because some spiritualists were at that moment, deep in the mystic rites of holding a circle, to which faith, it is said, Mrs. Hoffman is almost persuaded, having no other particular religion.

The evil genius of her house, she sometimes is constrained to believe, is the spirit of a deceased sister, who died in Holmes county, Ohio, a few months before IT began operations. They used to quarrel a good deal about clothes before the sister put on immortality; and it may be that the force of habit was so strong as to lure the departed one when in a wayward mood, from the bright side of the New Jerusalem to renew old times with her sister, and to cut up her clothes. Such, at least is Mrs. Hoffman's idea, when she reflects upon the past, and those who have gone before. Again, she imagines that it might be the ghost of her father; yet thinks he would not have the heart to bewitch her family And so no, until many dead are under suspicion of not being as good as they might be.

In fact, for "ways that are dark," the operations of the house are peculiar. Mr. Hoffman, who is a common place man, and well known for many years in Wayne county, as an unright citizen, cannot see through the millstone, although himself a miller. He wants to go away for it never molests him only when he is with his family, when the spirit business is about pat, cutting up his clothes, purloining his money, which he worked hard for, and taking away the provisions he furnishes for the family. All his good clothes are gone. His old working suit he protects from the destroyer by placing it under his pillow at nights: His money—what little he has—he saves by wrapping his pocket book in a handkerchief which he ties around his body under his shirt. He remains with the family because of their beseeching tears to stay as protector. They become almost frantic with grief if the old man offers to go. He is a kind father and a good husband; and if the outrages upon him are committed by members of his family it would be ungrateful, if not worse.

When his boots were returned, all cut to pieces, a copy of the New Testament lay over them, opened at XVIII chapter of Acts. At two subsequent times the Testament mysteriously opened at III chapter of Acts, and XIV of St. John. The leaf was turned down in each instance, but no verse marked.

Many seemingly strange things are done. For example, a trunk was packed and locked, preparatory to moving When no one was near the lid was raised by an unseen hand and the clothing thrown out upon the floor. The trunk was repacked and locked; again the lid was lifted, and a muff at the bottom thrown out, with out in the least disturbing the apparel on top. This manifestation ended by IT sawing the lock out of the trunk.

Night appears to be the season of greatest annoyance, full of noises, rappings and general disturbance. One night the two daughters were awakened from sleep by the sensation of being punctured with pins, and sprang from the bed and ran into their parent's room, where they remained the rest of the night, afraid to return to their own chamber.

The clothes of the family having been nearly all destroyed, the spirits turned their attention to that of visitors, and play havoc. Several persons' clothes have been cut while in the house, one lady having her dress ruined, and another rent, and this, too, done in daylight in the presence of individuals who were on the lookout for such depredations.

One afternoon lately, at the request of C. M. Kenton, editor of the Sureve *Mirror*, our reporter accompanied him and two other gentlemen to Mr. Hoffman's house, where they were shown every courtesy, by way of exhibiting piles of cut up garments, etc., and relating the various annoyances to which the family are almost daily and nightly subjected. When about to take their departure, it was found that the reporter's hat was slashed, so to speak, into ribbons. The hat was upon a small stand in the room, where all were, and could not have been moved from its place or the action would been observed. The cuts were clear, as if done with some lancet-kind of instrument—performed expertly, and upon the principle. "What thou doest do quickly." It was afterwards learned that IT mistook him for an orthodox minister of the Gospel; hence his loss is some preacher's gain.

There are many other strange incidents "too numerous to mention."

However, it is confidently believed by every sanguine person that the mystery of the bewitched will soon be solved, from the fact that Mr. S. B. Cooper, a well known and respected citizen of Wooster, has written for the celebrated clairvoyant, Madame Thomson, of Cleveland, to come to this city and lift the veil that shadows the house of Hoffman. The Madame gave him valuable information on two occasions; the first a triumph; but the second, digging for treasure at 2 o'clock, A. M., in the hill-side near the railroad depot, was unfortunately, not a success, on account of the interference of the police.—*Wooster Republican.*

AN EDITOR'S REBUKE OF THE PRESS.

BY PARSON DAKE.

I write with a firm conviction that a reform is absolutely necessary in the manner of conducting secular newspapers, in order that they may retain the respect which they gained in years gone by.

A careful examination of the complexion and character of the journal and other journals of the United states, shows them to be strikingly deficient in the matter of useful instruction. Murders and executions, attempts at arson and burglaries, pilferings and brutal dog fights, assaults and batteries, counterfeitings and swindlings, abductions and rapes, horse racings and trotting matches, vulgar anecdotes, petty frauds, and a tiresome tissue of other depravities and follies, many of them so utterly low and contemptible, as to be unworthy of notice, are in a great measure their contents. To trace the influence of these things upon the public mind is next to impossible. But imagination and sober reflection make us see their natural offspring to be numberless mischiefs. They serve to corrupt and pervert the moral propensities and views, and by pandering to the vitiated tastes of the nation, introduce a certain degree of looseness, not to say licentiousness, of manners and sentiment through almost every channel of society. Not a few, but many of the gazettes are devoted to the dissemination of obscenity, falsehood and slander; and are made the medium through which to flood the country with licentious engravings; while others are devoted to the harsh asperities of vindictive political aspirants or their miserable instruments.

As a general thing we find no light thrown upon the sciences, no aid given to the arts, no benefits conferred upon agriculture, no prop to genius. The whole bears a perfect resemblance to the mountebank exhibitions of other days, serving to create a vacant laugh, or perchance an equally vacant stare.

City papers, with scarcely an exception are shamefully deficient in their duty respecting suggestions that relate to public improvement, unless it be a project of magnitude. Even then, after having been briefly touched upon, the project is too often left to slumber in obscurity. To every industrious, honest laborer the field is unlimited, provided there is a disposition to promote those schemes which most deeply concern the best interests of citizens.

It is the peculiar province of editors to scrutinize such matters, and to afford all the aid they can in relation to those topics which involve the character, embellishment, or future prosperity of the particular locality in which their newspapers are published. If wanting in duty, they are without excuse; and that they are open to the imputation of gross neglect and almost criminal carelessness, I believe will not be denied.

This charge is fixed upon the ground that columns of their papers are occupied with accounts of transactions of a trifling nature, while events of the most importance are passed by unheeded. The reputation of some of the journals of the union is a disgrace to our country and to republican government, and a regard for the public morals, the public tranquility, and the preservation of our free institutions calls aloud for as thorough a reformation as possible to make. The moral people of the country cry out for very shame against the evil. Shall we have a reform? Shall the people be lifted by the power of the press as in the past, or shall they be dragged downwards by journals that corrupt their morals? It is for the editors of the country to answer these questions, and I hope to see them answered in actions as well as words.—Golden Age.

ABOUT BILIOUSNESS.

A clergymen comes in to see me a dozen times a year, about his biliousness. Biliousness is a common malady. I know a great many people who are bilious. They had no dyspepsia; they never had a symptom of dyspepsia in their lives; they are only bilious.

Now this word biliousness is a sort of covering for pigishness. People are not bilious who eat what they should eat.

Reader, are you bilious? (Rather a hard question after the above hard word.) Let me prescribe for you. If you follow my prescription, and don't get well, write to me, and in the next edition I will announce my error.

First, on getting up and going to bed, drink plenty of cold water.

Eat for breakfast, until the bilious attack passes, a little stale bread, say one slice, and a piece as large as your hand of boiled lean beef or mutton. If the weather is warm, take instead a little cracked wheat or oatmeal porridge.

For dinner take about the same thing. Go without your supper.

Exercise freely in the open air, producing perspiration, once or twice a day. In a few days, your biliousness is gone. This result will come, even though the biliousness is one of the spring sort, and one with which you have, from year to year been much affected.

Herb drinks, bitter drinks, lager beer, ale, whisky, and a dozen other spring medicines, are simply barbarous.—Dio Lewis.

Thieves! Knaves! Swindlers! These are mild terms with which to designate those mean contemeptible adventurers, who have been induced by the high reputation which Dr. Sage's Catarrh Remedy has won to put up and offer for sale a worthless imitation of this celebrated medicine. Remember that Dr. Pierce's private stamp, which is the only positive guarantee of genuineness, should be upon every package. This private stamp, issued by the government expressly for stamping Dr. Pierce's medicines, has upon it his portrait, name and address, and the words 'U. S. Certificate of genuineness.' Don't get swindled by men calling themselves Dr. Sage; Dr. R. V. Pierce, of Buffalo, N. Y., is the only man now living that has the right and can prepare the genuine and original Dr. Sage's Catarrh Remedy. Sold by druggists, or sent by mail on receipt of sixty cents.

A rhythmic romance in six lines: He took her fancy when he came; he took her hand, he took a kiss; he took no notice of the shame that glowed her happy cheeks at this. He took to coming afternoons; he took an oath he'd ne'er deceive; he took her father's silver spoons, and after that he took his leave.

GRAMMER IN RHYME.

The name of the author of the following poem should not have been allowed to sink into oblivion—"unwept, unhonored and unsung." On the contrary, he deserves immortality and the gratitude of generations yet unborn, for we have never met with so complete a grammar of the English language in so small a space. Old as well as young should commit these lines to memory, for by their aid, it will be difficult if not impossible for them to fall into errors concerning parts of speech:

1. Three little words we often see,
Are articles a, an and the.

2. A noun's name is anything,
As school or garden, hoop or swing.

3. Adjectives the kind of noun,
As great, small, white or brown.

4. Instead of nouns the pronouns stand—
Her head, her face, my arm, my hand.

5. Verbs tell something to be done—
To read, laugh, count, jump or run.

6. How things are done, the Adverbs tell,
As slowly, quickly, ill or well.

7. Conjunctions join the words together,
As men and women, wind or weather.

8. The proposition stands before
A noun, as in or through a door.

9. An interjection shows surprise,
As Oh! how pretty—ah? how wise!

The whole are called Nine Parts of Speech,
Which reading, writing, speaking teach.

OVER MOUNT CENIS.

"Our Monthly Gossip" of *Lippincot* for April is very interesting. Mrs. Sarah R. Wister, daughter of Mrs. Kemble, gives a graphic picture of a railroad ride over Mount Cenis. As the track winds upward the cliffs grow sheer and beatling, the peaks are higher, the gorges deeper, the flat bits fewer and smaller, the remoteness from all human life is more solemnly felt. Day was declining, and the sunlight crept higher and higher, lying first across the sombre face of the mountain as it looked forth from its hood of snow, then on the brown woodlands which clothe the steeps, then over stretches of dark green pine forest on colder heights, and last on the white summits, they glowed with a color which is like no sunset, but the dawn of an eternal day. Sometimes the road ran between walls of rock which almost shut out the sky; over these hung frozen waterfalls that spring down in summer with a single leap—now one huge icicle, flushed like a Doric column. The streams that feed them are frost-bound in their rocky beds; we saw no living water except the torrent which rushes sparkling and foaming beside the track, its clear waves looking bright and black between the snow-covered banks. Sometimes the road crossed a bridge where we hung in mid-air, and looked down into the heart of the mountain rent by gorges and chasms, a mere chaos of crags and and abysses, and the snow lying over all. At intervals we saw perched on a ledge overhead a village in its solitary squalor, a mere huddle of miserable cottages, with a little church; in another instant we were looking down upon its spire. When the last of these was left behind, loneliness became supreme. Evening coming down upon a prospect which was growing stern and awful; the huge boulders on the banks and in the stream looked like blocks of ice; the masses of rock rising abruptly amid the snow covered slopes were as white as the barriers of the Artic world. For a while the horizon was wrapped in the gray twilight, and objects were indistinguishable; then by degrees the moon gained power and prevailed, and showed a wonderful scene. There was not a tree, a shrub, a rock in sight; we were crossing a plain, shrouded in white. Close above it were the highest peaks of the monutain, and stooping down over them the dark blue midwinter night sky and its green stars. The universal snow around us lies there half the year; the snow above us is the snow that never melts. The moonlight shed a silvery sheen over the whole, there was only the snow, the mountain-top, the sky, and the lights of heaven.

PROGRESS OF THE NORTHERN PACIFIC.

The energy with which the building of this great thoroughfare is being pushed forward is an added guaranty of its early completion and its wise management. We learn from the financial agents of the road, Mess s. Jay Cooke & Co., that, at the present date, the grading is nearly finished for 266 miles, from Lake Superior, through central Minnesota, to the eastern border of Dakota; trains running over 130 miles of complete track; the Mississippi river is bridged at Brainard and once more joined to the Lakes by rail, and track laying is rapidly progressing westward. By September next, trains will run to the Red river, and the grading will probably be far advanced toward the Great Bend of the Missouri river in central Dakota.

In the meantime work has commenced, the present season, on the Pacific coast; a large force of men is already employed in the valley of the Columbia river, in Washington territory, and hereafter the work of construction will be pushed both eastward and westward toward the centre with such rapidity as the best interests of the road may justify.

Including its purchase of the St. Paul and Pacific Road, the Northern Pacific Railroad Company has 413 miles of road now in operation, and before the close of the present season, the length of finished track will be at least 560 miles. The new highway to the Pacific is being constructed at the lowest cost compatible with first-class work.

A stone cutter in Ohio has achieved immortality for himself by tracing on a tombstone the assertion that the little child buried beneath 'was an angle on earth, and now is an angle in heaven.'

The Independent.

Two Dollars a year, in advance.

Massillon, Wednesday, May 17.

A meeting of the Board of Trade of much more than ordinary interest was held on last Friday evening, at Richheimer's Hall. The object was, to present a statement through a committee appointed for that purpose, in regard to the matter of taxation of railroad property. A. C. Wales, Esq, was called upon and made a brief statement, in which he gave a succinct history of the action of the legislature in regard to equalizing taxation, but nothing effective was done. It is very generally thought that railroad property, being among the most valuable investments, is too lightly taxed; and the object of this meeting was to elicit information on that point. A statement embracing much valuable statistical information was read and adopted. The reason for prompt action on this question is, that the auditors of the several counties through which the P. F. W. & C. R. W. passses are to meet at Canton on the 24th inst, for the purpose of assessing tax on this property. What effect this presentation of facts and statistics may have on the board of auditors no one can tell, but they certainly should have a heavy bearing in favor of an increased tax. A rich, money making coporation ought not to ask exemption from just and equitable taxation, and we dont know that they do so, but somehow it has been very much that way. Stark county is entitled to many thousands more dollars, in the shape of taxes from railroads than it has yet recieved, and so of other counties. Hoping that we shall be able to present the document referred to in to-day's paper, we refer the reader to it.

WASHINGTON TREATY.—This is the title of the joint production of the high commission, appointed by the government of the U. S. and the British authorities, who were authorized to take steps to adjust d'ff.rences between the two countries. They have done so, and their report is published in the daily papers, which is a document of considerable length—too long for a majority of country papers to insert. This commission has not by any means made a final adjustment of claims on either side, but come to a general understanding on many points in prescribing limits to the action of five arbitrators, who are to be named. These arbitrators are to be designated as follows: One by the U. S. government, one by the British authorities, one by the emperor of Brazil, one by the king of Italy, and one by the president of the Swiss republic. These arbitrators are to meet at Geneva, Switzerland, and are there to deliberate on the questions involved, and so far as we can ascertain, their conclusions are to be final. In the matter of the fisheries, however, the commission came to an agreement, and that is, both the citizens of the United states and Canada are to have free access to all the fisheries belonging to each country, excepting shell fish—each party retains full control of its own territory as to the last named property. The principal business of the arbitrators will be to adjust the Alabama claims on part of the United States, and such indemnities as the British government may present in order to cancel as far as they can, the aforesaid claims. This is a much more sensible way of settling difficulties than for nations to go to killing each other.

The democratic crowing over the election in Connecticut has been pretty much for nought, as on the assembling of the legislature, and an official count of the votes it is found that the republicans have the governer, the other states officers, and both houses of legislature. It is an old adage that one should not exult before he is out of the woods—there might be enemies about. And the probabilities are that New Hampshire will not be any better for them, so the crowing over a democratic victory in that state may also prove a dead loss,—for the present appearance of the situation ind cates about such a result. Ordinarily the longer a man lives the more he finds out—except among the Bourbons who are said never to forget or learn anything.

ROOMS OF THE BOARD OF TRADE OF THE CITY OF MASSILLON, MAY 12th, 1871.

To the Members of the Board of Appraisers and Assessors of the property of the Pittsburgh, Ft. Wayne & Chicago Railway Company.

GENTLEMEN:—The heavy burden imposed on the real estate of Ohio by the increase of its assessment for taxation to the extent of about eighty per cent. seems to present a peculiarly fitting occasion to those charged with the duty of assessing the property of corporations, for an earnest, careful and intelligent inquiry into the true principles that should govern them in the discharge of that important duty. The constitution of our state provides for the taxation of "all real and personal property according to its true value in money," and section four of the thirteenth article reads, "the property of corporations now existing, or hereafter created, shall forever be subject to taxation the same as the property of individuals." The track, sidings, switches, depots, shops, cars, rolling stock, franchise—in short, the property of every sort of a railroad company, is represented, and its value accurately represented, by the market price of its stocks and securities. Whoever would buy all the stocks and bonds of a railroad company, would own all the property of the company Whoever wishes to buy a railroad has no other way of doing so, ordinarily, than by buying its stock and bonds. There is no other index to the value of a railroad property, at once, so just, so sensitive, and so acurate as the market value of its stock and bonds; just, because there is no standard so equitable and fair, as that price, which, every one having the article to sell, is willing to take, and every one wishing to buy it is willing to give: sensitive and acurate, because just exactly as the property of a railroad company becomes more valuable and productive, its securities advance; as it become less so, the securities decline; and with their rise and fall, the securities register the value of the company's property with the acuracy of a barometer. The property of all kinds of the company you are called upon to appraise and assess is represented according to the sworn statement of the officers of the company (see Ohio Railway Report, Vol. II pp. 237,) by the following stock and bonds:—

Total amt of stock & bonds,	$33,395,515
Total amt stock & bonds for Ohio	17,920,760
Amt of bonds & stocks per mile,	71,312
Net earnings of company (Report same vol. pp. 224)	3,323,606
Equal to 10 per cent of the total amount of its stock and bonds.	

The general tax law, section seven, provides that all "real property shall be valued at its true value in money—but the price for which such real property would sell at auction, or at forced sale shall not be taken as the criterion of such real value—personal property of every description shall be valued at the *usual selling price* of similar property at the time of listing," and the Auditor of State in his instructions to assessors (pp. 10,) emphatically says, "The only rule that can approach uniformity as applicable to a multitude of cases, and approximate equality and justice, is the usual selling price of similar property in the same vicinity—every officer therefore engaged in valuing real estate under the tax laws of Ohio, is bound by the constitution, the laws, and his oath of office, to appraise it at its market price, or usual selling price." And he further urges that these appraisements shall be made on a currency, and not on a gold basis.

You, gentlemen, are acting under the same obligations, the same oaths. You should be governed by the same instructions, and be held to the same accountability. It is notorious, and should be within the knowledge of all of you, that the average market price of the stocks and securities of this company, has been substantially at par during the past several years.

The select committee on Postal Telegraphs of the House of Representatives of th forty-first congress, gave to the consideration of the true method of valuing the property of corporations a most labored, patient and candid investigation. As the result thereof, it was determined to proceed by three methods, First, to take the average market price of all the stock and bonds of the company for the past year; Second, the capacity of the company to earn dividends. A company capable of earning yearly ten per cent. upon its capital being taken as the standard of par, and a more or less productive company rated proportionately higher or lower. Third, what it would cost to construct new lines, structures, rolling stock, and property of all kinds, of equal value with the existing property of the company; and then to take the average of the above three modes, as the true basis of valuation.

It seems impossible for human wisdom to devise any method by which a body of men, honestly and intelligently striving to discharge the duty devolving upon you, and to deal exact, even handed justice, to an oppressed and tax burdened people on the one hand, and a rich, insolent, powerful corporation on the other, could more conscientiously and perfectly compass that end than by the plan hit upon by the committee.

The Pittsburgh, Ft. Wayne and Chicago railroad was built nearly 20 years ago. No one at all conversant with business will doubt that the price of labor and materials has advanced more than fifty per cent during that time. The real and personal property of the company in common with the real and personal property of the state, has advanced more than one hundred per cent. The sworn statement of the officers of the company for 1870 (Ohio Railway Report, Vov. II. pp. 208,) shows the cost of construction and equipment of Ohio's proportion of the roadway has been $13,246,646, or per mile, $52,712. Add fifty per cent. for twenty years advance in property and cost of labor and materials, and we have for the cost of Ohio's proportion of the raiload $19,869,969, or per mile $79,068. The total market value of the stocks and bonds as before shown, $33,395,515; Ohio's proportion of the same, $17,920,760, or per mile, $71,312; Total earnings as before stated, $3,323,606; or ten per cent. upon the entire capital and bonds, so that estimating the property of the corporation by either of the methods proposed by the committee, or by combining and averaging all three of them, it is very difficult to conceive how, under the constitution and laws of our state, and the obligation of your oaths, you can appraise Ohio's portion of the road at less than $17,920,760, or $71,312 per mile.

The present unequal valuation of Ohio's portion of the road (see Auditor of State's Report for 1870, pp 56) is $7,210,879, or per mile, $28,694 The following table has been prepared in which is shown in the first column the counties through which the rail road runs, and the second and third columns the length of roadway in miles and hundredths; in the third column the increased amount that would be placed upon the duplicate of each county for taxation by a just assessment, and in the fifth column the increased amount of taxes that would annually be paid into each county by reason of such just assessment, estimating the average rate of such taxation at twenty mills on the dollar, which is a little less than the average rate of taxation in the state last year. (Auditor of State's Report 1870, pp. 345.)

Counties.	Miles	100ths	*Increased amounts on duplicate*	*Increased annual taxation.*
Columbiana	23	97	$1,021,163	$ 20,423
Mahoning	10	6	423,737	8,514
Stark	34	83	1,484,384	29,687
Wayne	30	17	1,285,685	25,703
Holmes	7	07	301,309	6 026
Ashland	8	00	340,944	6,818
Richland	25	05	1,067,580	21,351
Crawford	20	45	871,438	17,423
Wyandotte	20	03	853,638	17,072
Hardin	20	28	864,202	17,286
Allen	25	68	1,094,430	21,888
Van Wert	26	25	1,118,732	22,374
Totals	251	84	$10,732,723	$214,570

The present rate of appraisement it will be seen is only forty per cent of the real value of the property of the company.

It is plain that by as much as your action fails to levy a fair and just tax upon the corporation by just so much it lays a heavier burden upon the people; for the tax that an unequal and diminished appraisement enables the corporation to withhold must be money from the people's pockets.

Steps are being taken to spread these and kindred facts relating to the taxation of railroads before the people of this state, and especially before that portion of the people by whose favor you hold your positions. Doubtless they will hold you to a just and proper responsibility of your actions.

The foregoing address was drawn up by Hon. A. C. Wales, Wm. F. Ricks, and Joseph Coleman, a committee appointed by the president to perform the same. Upon its being submitted to the Board it was unanimously adopted

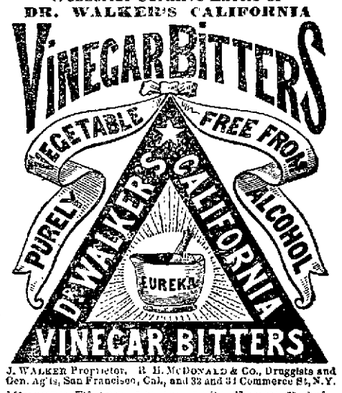
MILLIONS Bear Testimony to the Wonderful Curative Effects of DR. WALKER'S CALIFORNIA

VINEGAR BITTERS



J. WALKER Proprietor. R. H. McDONALD & Co., Druggists and Gen. Ag'ts, San Francisco, Cal., and 32 and 34 Commerce St., N.Y.

Vinegar Bitters are not a vile **Fancy Drink,** Made of **Poor Rum Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the Blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erisipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, is literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Hoofland's GermanBitters,

Hoofland's German Tonic,

Hoofland's Podophyllin Pill

Hoofland's Greek Oil.

Hoofland's German Bitters,

A Bitters without Alcohol or Spirits of any kind.

Is different from all others. It is composed of the pure juices or vital principle of roots, herbs, and barks, (or as medicinally termed, extracts), the worthless or inert portions of the ingredients not being used. Therefore, in one bottle of this bitters there is contained as much medicinal virtue as will be found in several gallons of ordinary mixtures. The roots &c., used in this bitters are grown in Germany, their vital principles extracted in that country by a scientific chemist and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use, they cannot make drunkards, and cannot under any circumstances, have any but a benencial effect.

Hoofland's German Tonic

Was compounded for those not inclined to extreme bitters, and is intended for use in cases where some alcoholic stimulant is required in connection with the tonic properties of the bitters. Each bottle of the tonic contains one bottle of the bitters, combined with pure Santa Cruz Rum, and flavored in such a manner that the extreme bitterness of the bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the bitters. The price of the tonic is $1,50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain only the best ingredients, and they who expect to obtain a cheap compound will most certainly be cheated.

They are the greatest known Remedies

For Liver Complaint, Dyspepsia, Nervous Debility, Jaundice, Disease of the Kidneys, Eruptions of the Skin, and all diseases arising from a disordered Liver, or Stomach, or Impurity of the Blood.

Read the following symptoms:

Constipation, flatulence, inward piles, fullness of blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness or weight in the stomach, sour eructations, sinking or fluttering at the pit of the stomach, swimming of the head, hurried or difficult breathing, fluttering at the heart choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, dull pain in the head, deficiency of perspiration, yellowness of the skin, and eyes, pain in the side, back, chest, limbs, &c., sudden flushes of heat, burning in the flesh, constant imaginings of evil, and great depression of spirits. All these indicate disease of the liver or digestive organs combined with impure blood.

The use of the bitters or tonic will soon cause the above symptoms to disappear, and the patient will become well and healthy.

Dr. Hoofland's Greek Oil,

LIGHTNING CURE FOR ALL KINDS OF PAINS AND ACHES.

Applied Internally.—It will cure kidney complaints, backaches, sick headaches, colic, dysentery, diarrhœa, cholera infantum, cholera morbus, cramps, and pains in the stomach, fever and ague, colds, coughs Asthma, &c.

Applied Externally.—It will cure all kinds of pains and aches, such as rheumatism, neuralgia, toothache, chilblains, sprains bruises, frost bites, headaches, pains in the back and loins, pains in the joints or limbs, stings of insects, ringworms, &c.

Dr Hoofland's Podophyllin

Substitute for Mercury Pill.

TWO PILLS A DOSE.

The most powerful, yet innocent vegetable cathartic known.

It is not necessary to take a handful of these pills to produce the desired effect; two of them act quickly and powerfully, cleansing the liver, stomach and bowels of all impurities. The principal ingredient is Podophyllin, or the alcoholic extract of mandrake which is by many times more powerful, acting, and searching, than the mandrake itself. Its peculiar action is upon the liver, cleaning it speedily from all obstructions, with all the power of mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They never fail,

In cases of liver complaint, dyspepsia, and extreme costiveness, Dr. Hoofland's German Bitterrs or tonic should be used in connection with the pills. The tonic effects of the bitters or tonic builds up the system. The bitters or tonic purifies the blood, strengthens the nerves, regulates the liver and gives strength, energy, and vigor.

Keep your bowels active with the pills, and tone up the system with bitters or tonic, and no disease can retain its hold, or ever assail you.

These medicines are sold by all druggists and dealers in medicines everywhere.

Recollect that it is Dr. Hoofland's German Remedies, that are so universally used and highly recommended; and do not allow the druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These remedies will be sent by express to any locality, upon application to the principal office, at the German Medical Store, 631 Arch Street, Pa.

Chas. M. Evans, Prop.

Formerly C. M. Jackson & Co.

These remedies are for sale by druggists, storekeepers, and medicine dealers, everywhere throughout the United States, Canadas, So America and the West Indies. 289-1y

Celebration.—The I, O. O. F. lodge of this place (Sippo) is making ample preparations to celebrate the 26th anniversary of the introduction of the odper in Stark county. The organization here is strong in numbers and wealth, and will do the handsome thing in endeavoring to render the occasion pleasant and agreeable to all who may participate. Eminent speakers have been invited, among who are Hon. W. Nicholson of Philadelphia, a distinguished member of the order; vice president Colfax, and other well known leading men. The celebration takes place on the 9th day of June, just about the time when everything out doors will be full of life, and all nature will be wearing her blandest smiles. No doubt the day will be made memorable from the agreeable associations connected with it.

A Strawberry Festival, first of the season, will be given at the American Hotel on Friday evening next, the 19th inst. for the benefit of the Massillon Silver Band. A general attendance of our citizens is respectfully solicited, as this occasion introduces one of the favorite luxuries.

An exceedingly lively paper is the Herald, of Anderson, Ind. Mr. Hardesty is a live editor, and doubtless gives entire satisfaction to his patrons. Young & Carle are agents for the sale of the Massillon Excelsior Mower & Reaper, and have a big advertisement in the *Herald*.

A man, whose name is unknown to us, was out on Monday evening with his gun for the purpose of shooting muskrats. From some cause he fell down, about 9 o'clock, and soon after died. He was an employee on the railroad, and lived near the track a little east of town.

Mrs. Folwell, who has but recently commenced a new millinery establishment at the corner of Mill and North streets, just south of the M. E. church, is crowded with business, and has been for weeks. This is very encouraging for a beginner. That branch of trade is generally doing well here.

Although the air has been cool most of the time since the last renewal of the moon, the leaves on some of the trees, such as the sugar maple and buckeye, are full grown, which makes it look like summer whether it feels so or not.

The G. A. R. Post of this place are endeavoring to make decoration day one which shall long be remembered.

Rev. R. L. Williams, pastor of the Presbyterian church, having been elected commissioner to the General Assembly, which meets at Chicago on the 18th inst., will be absent from the city during the sessions of that body. Rev. H. M. Fry, of Salem, is expected to fill his pulpit next Sunday.

The enlargement of the gas works is becoming an increased necessity as pipes are being extended in various parts of the city. Those living toward the east end of Main st are availing themselves of the benefits of gas by having pipes extended to their dwellings.

Among the handsome buildings just erected on Main street is the new frame residence of Mr. F. Crone. When finished it will be one of the most tasteful dwelling houses in the vicinity.

In consequence of changes in the arrivals and departures of mails our postmaster has revised his time table.

Mr. Wm. McClymonds is giving considerable personal attention to the improvment of the park; and having the ground pretty well prepared, the place is assuming a more attractive aspect every day. Pathways are being laid out, graveled, and finished, and the margins covered with sward, while the other portion of the area is sown with the proper kinds of grass seeds. Every day our people are becoming more and more reconciled—especially such as were indifferent—to this improvement, and by the time it is completed all, we anticipate, will be rather proud of the existence of a beautiful, tasteful and well arranged park.

But a few days ago a Cleveland paper unfortunately made a conspicuous typographical error, by leaving a letter out of the word shirt. Other errors will suggest themselves to some folks. We are indebted for the munificient donation of a primary speller, to some modest, unknown philanthrophist, and shall try to observe its teachings.

The Art Review is a new medium of thought, got up in superior style, conducted by E. M. Trafton, and comes from Chicago. There is much in it of a professional nature, and to the makers of pictures of all classes this monthly will be a work of value.

Mr. John Wagner, formerly of this vicinity, we suppose, sends us a late copy of the South Kansas *Tribune*, published at Independence, a town of fifteen hundred people, and now but about seven months old. He gives a very flattering account of the prosperity of the place, where he says Fred Ruch, formerly of Fulton, and S. U. Humphrey are now residing, the latter being publisher of the paper.

A thousand letters in their proper places will arrest no attention by the casual reader, but let a wrong letter get into a word and every body sees it—it "draws the attraction."

We have been needing rain here for a week or two, as the weather is comparatively dry, and at no time very warm. According to the published of reports of the state of the atmosphere at numerous points throughout the country, the mercury indicates general coolness, and not much rain anywhere, for half a month. A fine shower visited us last evening.

Large numbers of people were in town on Saturday, partly from the fact that it was pay day at the coal mines, and then the weather was pleasant. It was a good business day for stores of all classes.

By notices about town we see that Jesse Duck, Esq., revenue collector of this district, is to be in this place on the 26th of this month.

In consequence of unexpected results which have lately transpired Professor Atwater will visit this place every two weeks, instead of every three weeks, as heretofore announced.

The Home Relief Association will meet at the residence of Mr. Charles London, on East street, on next Thursday afternoon.

A fire took place at Minerva on Wednesday night of last week, which resulted in a heavy loss of property in the shape of stores dwellings and shops. The estimated destruction is placed at $40,000, only two thousand of which was insured. But for the energy and assistance of the people the loss would have been much greater as there was great danger of the fire extending.

The Advance, of Chicago, one of the ablest and best conducted papers of the Congregational church in the country, has been in existence for four years, and thus far has proved a success, even exceeding the expectation of its founders. It is progressing successfully, and every department of the paper is the result of unwearied industry and faithful labor.

Why is it?—Our Alliance brethren of the press are on the road to distinction. Bro. Brown of the Monitor was recently fined for enclosing circulars in his papers without observing some of the post office laws. Has anybody a spite at B. and taken this method of venting it? It looks that way, for he is perhaps the hundred thousandth man who has enclosed just such circulars, nearly or quite all of whom have escaped without even a five dollar fine. Then some tramp in the last Local of the same place comes out in a quarter of a column card abusing Mr. Brown because he would not employ him, and cautions the craft to avoid him as they would a reptile. How much bro. B may be deserving of such treatment we cannot say, but at this distance it looks rough.

Then there is bro. McKee, of the Local, who took the liberty to say something, not of the blarney style, about Benedict's "Nigger show." Whereupon Mr. Duprez, of the show, has proceeded to prosecute Mac for libel in the sum of $5,000—Lew Schaffer, of Canton, being the prosecuting attorney, and bail for costs of suit. Hope our Alliance brethren enjoy this kind of fun, but most people would rather dodge it. When the showmen get $5,000 damages of bro. Mac they may crow,—but they will have a good time getting it.

Some malicious party on last Monday night, poisoned from 30 to 50 sheep belonging to Cyrus Young, At this time it is not known how many may die. Mr. Y. offers a reward of $100 for the detection and conviction of the guilty person or persons, and we hope they will be punished to the extent of the law

Gen. K. Jarvis, who has been absent some weeks on business in distant parts of the country, we are pleased to see has returned in safety, and is now enjoying his wonted health.

Our friend A. Harsh has gone East again for a fresh stock of notions and parasols: look out for new arrivals

COUNCIL PROCEEDINGS.

Wednesday Ev'g, May 10, 1871.

Council met in regular session and was called to order by the president. Roll being called the following members answered to their names: Messrs. Russell, Mong, Kirkland, Oberlin, Crone and Willenborg.

Minutes read and approved.

Street commissioner Hewes submitted his regular report for work done on streets and alleys for the week ending May 6, which was on motion of Mr. Oberlin referred to street and alley committee.

The following resolution was offered by Mr. Crone:

Resolved, That the regular and special meetings of this council be held hereafter in the rooms provided for that purpose, in the new city building in the first ward, and the city clerk be and he is hereby instructed to remove or cause to be removed, the city safe to the aforesaid room.

Mr. Willenborg moved the adoption of Mr. Crone's resolution. Yeas, 3; nays 3.

Mr. Kirkland offered the following:

Resolved, That the street and alley committee are hereby instructed to advertise for sealed proposals for the grading and cindering of Mill street, from Main street to South street, and Main street from Factory street to the River Bridge, in accordance with the grade established.

On motion of Mr. Willenborg the resolution was adopted. Yeas 6; nays none.

A petition from D. R. Atwater and others was then presented and read, asking that that part of Promenade street bordering on the east line of the Episcopal church lot, and intersecting Oak and Tremont streets be vacated

Mr. Crone moved that the petit on be received and placed on file, and that the Mayor be instructed to take the necessary steps to have the same vacated. Motion prevailed.

The following sealed proposals for the city paving were then read as follows.

John A. Fulkmer, for all city paving per yard and furnish material, 40 cts. per yard the city to furnish material, 16 cts.

Joseph Sprenger, for all the city paving per yard and furnish material, 39¾ cts. per yard the city to furnish material, 17¾ cts.

Peter Rute, for all the city paving per yard and furnish material, 35 cts. per yard the city to furnish material, 15 cts.

The proposal of Peter Rute was on motion accepted.

The city marshal submitted his report for funds collected and turned over to the Mayor, for the month ending April 30, to wit:

Fines, $3; Licenses, $3; For printing done by the city per Jacob Paul 2,50—$8,50.

An ordinance amending an ordinance fixing the salary of the city soliciter was then taken up and had its first reading.

Mr. Crone moved that the salary of the city solicitor be fixed at $600 per annum.—Yeas 5; nays 1.

On motion of Mr. Mong the rule requiring ordinances to be read on three separate days, were suspended, and the ordinance read a second time, and was then referred to the judiciary committee.

On motion of Mr. Crone the street and alley committee was instructed to have all streets and alleys within the corporate limits ope. ed. Motion prevailed.

Mr Mong moved that the several ward assessors be notified to report to the Mayor the amount of personal taxable property, also, those liable to poll tax. Motion prevailed.

On motion of Mr. Mong an order was drawn on the city treasurer in favor of Mr. London for $20, to apply on laying of side walks around city park, &c.

There being no further business the council adjourned.

Vestry Room, St. Timothy's Church,
Massillon, May 16, 1871.

Whereas, The vestry has received a communication from Rev. G. W. TIMLOW, resigning the rectorship of St. Timothy's parish—therefore,

Resolved, That it is with deep sorrow and great unwillingness that we accept his resignation, an act which separates from us a faithful pastor, a beloved friend, and Christian gentleman.

Resolved, That we bear willing and emphatic evidence to the faithfulness, wisdom, energy, discretion and ability with which he has discharged his parochial duties; visiting the poor and sick, supplying their wants, alleviating their sufferings, and ministering to their spiritual comfort, as well as aiding and guiding all, both by precept and example, for which we shall always preserve grateful recollections of his private worth and truly Christian spirit.

Resolved, That we tender to Rev. G. W. Timlow our sincere thanks for his services among us, and heartily commend himself and family to the confidence of those among whom, in the providence of God, their lot may be cast—above all, invoking for them to the end of their days the blessings of Almighty God.

Peaches and cherries are pretty well thinned out here by the biting frosts of the last two or three weeks—still there's hopes that we may be favored with something in the way of both. The apple prospect thus far seems good—at least we hear no complaint on that score. The advantage claimed in behalf of the cool weather is, that it is favorable to the wheat crop, which is now most promising.

The nicest line of napkins, huck towels, table linens, Marseilles, quilts and white goods generally, will be found cheap at Humberger & Son's.

Poisonous Medicines.

The theory that the virus of diseases can be safely counteracted by doses of poison is false and dangerous. Within the last twenty-five years not less than a score of virulent poisons have been added to the repository of the medical profession They are given in small doses, otherwise they would destroy life immediately; but even in minute quantities, they produce, ultimately, very disastrous effects. It is unwise and unphilosophical to employ as remedies, powerful and insidious drugs, which in subjugating one disease, sow the seeds of another still more unmanageable. None of these terrible medicaments operates with as much directness and certainty upon the causes of disease as Hostetters' Stomach Bitters, a tonic and corrective, without a single deleterious ingredient in its composition. Arsenic and quinina are given for intermittents; bromide of potassium for nervous disorders; strychnine and prussic acid for general debility; mercury in various forms for liver complaint; preparations of chloroform and opium for sleeplessness, and yet these deadly drugs do not compare, as specifics for the diseases above enumerated, with that vegetable invigorant and alterative, while they are all so pernicious that is astonishing any physician should take the responsibility of prescribing them. Let invalids for their own sakes, try the Bitters before they resort to the poisons. The relief they will experience from a course of the harmless specific, will render a recourse to the unsafe preparations referred to, quite unnecessary. 398-1y

Dr. Whittlesey, Esq.

Dear Sir:—Having stated it verbally to you, I have no hesitation in writing the fact, although not disposed in favor or to recommend patent medicines in general.

I do this more readily in regard to the sick headache cure prepared by Dr. Whittlesey, of Norwalk, Ohio. I have analyzed and tried it, and I recommend it as one of the best dyspepsia cures ever invented, and I feel that in recommending Whittlesey's cure I am doing at act of justice to the compounder of it, and an act of benevolence to those afflicted with dyspepsia and sick headache for which it is recommended.

Yours Respectfully,

Henry T. Helmbold's

COMPOUND FLUID

Extract Catawba

GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable containing no Mercury, Minerals or Deleterious drugs.

H

These pills are themost slightfully pleasant purgative, superseding castor oil, sal magnetia, etc. There is nothing more acceptable to the stomach. They give tone and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawaba Grape Pills are not sugar coated, from the fact that sugar coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawaba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar coated, Price 50 cents per box.

E

Henry T. Helmbold's

Highly Concentrated Compound

Fluid Extract Sarsaparilla

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers sore eyes sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, rash, dyspepsia, and all diseases that have been established in the system for years.

L

Being prepared expressly for the above complaints, its blood purifying propensities are greater than any other preparation of Sarsaparilla. It gives the complection a clear and healthy color, and restores the patient to a state of health and purity. And is the only reliable remedy for the cure of pains and swellings of the bones, ulcerations of the throat and legs, blotches, pimbles, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price $1,50 per bottle.

M

Henry T. Helmbold's

CONCENTRATED

Fluid Extract Buchu,

The Great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder and inflammation of the kidneys, ulceration of the kidneys and bladder, retention of the urine, gravel, milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with loss of memory, indisposition, weak nerves, trembling, pain in the back, hot hands, dryness of the skin, and a host of other symptoms. Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty-five, or in the decline or change of life after confinement or labor pains; bed wetting in children.

B

Helmbold's Extract Buchu is Diuretic and blood purifying, and cures diseases arising from dissipation, excess and imprudences in life, impurities of the blood, etc., supersedes copaiby in affections in which it is used, and syphilic affections—in these affections used in connection with Helmbold's rose wash.

Ladies, In many affections peculiar to ladies, the buchu is unequaled by any other remedy—as in chlorosis, irregularity, ulcerated state of the uteris, leucorrhœa or whites sterility, and for all complaints incident to the sex, whether arising from indiscretion dissipation. It is prescribed by physicians and midwives for the enfeebled and delicate constitutions of both sexes, and all ages.

O

H. T. HELMBOLD'S EXTRACT BUCHU cures diseases arising from imprudences habits of dissipation, etc, in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, so frequent in this class of diseases.

Use Helmbold's Extract Buchu for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating and no matter of how long standing. Price $1,50 cents per bottle.

L

HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, indurations of the cutaneous membrane, etc., dispels redness and incipient inflamation, hives, rash, moth patches, dryness of the scalp or skin, frost bites, and all purposes for which salves and ointments are used. It is an excellent Lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla, and Catawaba Grape Pills, in such diseases as recommended cannot be surpassed. Price $1 per bottle.

D

Full and explicit directions accompanying the medicines. Evidence of the most responsible and reliable character furnished on application, with hundreds of thousands of living witnesses, and upward of 20,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent physicians, clergymen, statesmen, etc. The proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as standard preparations, and do not need to be propped up by certificates.

H. T. Helmbold's Genuine Preparations.

A little girl who was drawing her father's picture when he was making a visit to her parent's house, was asked what she was getting along. 'Oh, not much,' she answered; so I'll just put a tail to it and call it a dog!'

A little boy and girl had been cautioned never to take the nest egg when gathering eggs; but one evening the girl reached the nest first, seized the egg, and started for the house. The disappointed brotaer followed, crying: 'Mother! Susy she's been and got the egg the old hen measures by!'

J. P., of Peekskill, writes the editor of the local sheet that "youl get your head punched if you print in yer paper that my yf had twins.

He that opposes his own judgment to what the times ought to be backed with unanswerable truths; and he that has truth on his side is a fool as well as a coward, if he is afraid to own it for fear of the currency or multitude of other men's opinions.

We often speak of a $1,000,000 as a large number when applied to public debt, but it is so large that it would take a man over sixteen days to count it, even if he were able to count a hundred per minute, and work ten hours per day.

The remark of an exchange, "that many of our successful lawyers commenced life as preachers," is gracefully corrected by one of the legal gentlemen referred to, who begs leave to state that he "began life as an infant."

A Main man has invented a new style of bedstead; it is wound up at nights, and to the hour one wishes to arise, on the arrival of which it turns the occupant out on the floor and curls itself in a hammock fashion.

A party in Tonganoxie, Kan., thus encourages the editor of his favorite journal: "Continue to pour red hot thunder bolts right into the teeth of the leeches and sharks that are sucking the life blood from the people." Filling a blood-suckers tooth with a red-hot thunderbolt must be a neat job in dentistry.

STOP THAT BOY.—That boy with a cigar in his mouth, a swagger in his walk, impudence in his face, a care-for-nothingness in his manner. Judging from his demeanor he thinks that he is older than his father, wiser than his teacher, more honorable than the president. Stop him he is going too fast, he does not see himself as others see him; he does not know his speed

The covetous man is a downright servant, a man condemned to work in mines, which is the lowest and hardest condition of servitude; and to increase his misery, a worker there for he knows not whom: He heapeth up riches, and knows not who shall enjoy them; it is only sure that he himself neither shall nor can enjoy them. He is an indigent, needy slave; he will hardly allow himself clothes and board wages; he defrauds not only other men, but his own genius; he cheats himself for money. But the servile and miserable condition of the wretch is so apparent, that I leave it, as evident to every man's sight as well as judgment.

The Independent,

Massillon, Ohio,

Is now Seven Years Old, and

"Still Lives."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justice on all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

Dr. J. LONG,

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office east of the Park, second door of Mr. Falke's new building.

All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other, This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,

of Spermatorrhœa, or Seminal weakness, involuntary seminal losses, impotency, mental and physical incapacity, impediments to marriage, etc.; also, consumption, epilepsy, and fits, induced by self indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

DR. WHITTIER

Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhea or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are per a nently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and privare diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

DR. PIERCE'S ALT. EXT. OR GOLDEN MEDICAL DISCOVERY

The originator of this wend combined in claims to have discovered and st sovereign harmony more of Nature's mo ever before medical properties than was e evidence combined in one medicine. Th variety of of this fact is found in the greatt has been most obstinate diseases which i found to conquer. In the cure of Bronchitis and the early stages of Consumption, it has astonished the medical faculty, and hundreds of the best physicans pronounce it one greatest medical discoveries of the age. By its great and thorough blood purifying properties, it cures all Humors from the worst Scrofula to a common Pimple or Eruption. Mineral Poisons, Syphilitic and Venerial Diseases, and their effects are eradicated and vigorous health and a sound constitution established. Salt Rheum, Scald Head, Fever Sores, in short, all the numerous diseases caused by bad blood, are conquered this powerful, purifying, and invigoraing medicine, FOR Liver Complaint, Billious Disorders and Habitual Constipation, it has produced hundreds of perfect and permanent cures where other medicines have failed.

The proprietor offers $1,000 reward for a medicine that will equal it in the cure of all the diseases for which it is recommended. Beware of counterfeits and worthless imitations. See that my private Government Stamp, which is a positive guarantee of Genuineness, is upon the outside wrapper. This medicine is sold by Druggists at $1.00 per bottle. Prepared by R. V. PIERCE, M.
